SUBJECT : Fuel Storage Tanks for Project "O"

1. The following fuel storage tanks are required for Project "O":

<u>SIZE*</u>	<u>QUANTITY</u>	<u>PURPOSE</u>
25,000 gallon	2	115/145 AvGas
40,000 gallon	2	JP-4

20,000 gallon	2	Special

2. Request we be informed on the availability of the four 250,000 gallon tanks prior to requisitioning them for the Project. Consideration is still being given to contracting separately for the manufacture and erection of these tanks. A decision will be made after we have reviewed the comparative costs and technical feasibility of doing the work with the Project construction contractor or with a sub-contractor. Shipment of the other tanks may be made as soon as available.
